# SUPPORT WORKER

## INTRODUCTION:

Hi, my name is Mads. I have a very bright, bubbly, and fun personality. I love being outdoors and staying active.

She loves to include this in her work while trying to encourage participants to move around, be active outdoors, and most importantly, have fun!

Mads also loves her downtime and understands not everyone is sporty, so quiet support sessions with clients is also great, or if you need to be taken to appointments, etc. Mads is here to help :)  
Mads is also looking to build more adult relationships!

My experience includes working with individuals with Intellectual disability, Cerebral Palsy, ASD Level 1, 2 and 3, Global Developmental Delay, Scoliosis, Chromosome Deletion Syndrome, ADHD, Generalised Anxiety Disorder, PTSD, extreme OCD and ODD.
